- 

## Education

- **Bachelor of Science in Computer Science**  
Expected Graduation: May 2025
  - **High School Diploma**  
Graduation: May 2021
- 

## Projects

- **Circuit Sphere (Android App):** Final Project for my Mobile Application Development class.  
Circuit Sphere is a mobile application developed with Kotlin in Android Studio for a technology store. It has a listing page for all products, a page showing relevant information for each product, a current cart, a sort-by-product drop down menu, and it has Firebase implemented to store the user's current cart and other relevant information.
  - **Seeing-Eye Glove (Product):** Final Project for my Electrical Engineering class.  
Developed with C++, the Seeing-Eye Glove is a handheld device that is used to help people who are blind traverse through public areas without the use of a cane. Using ultrasonic sensors, it detects when objects are in the nearby vicinity and alerts the user which direction the object is in by chiming a preset amount of times.
- 

## Experience

- **Sales Apprentice – Discount Tire, Homer Glen, IL – July 2024 – Present**  
Providing service to customers at the front desk. Selling products (wheels, tires, lugnuts, sensors, services) to customers when needed. Managing the inbound and outbound inventory of the store.
  - **Service Coordinator – Discount Tire, Homer Glen, IL – February 2023 – July 2024**  
Provide customer service to maintain customer satisfaction and transparency. Take a leadership role in making sure work is done properly, safely, and timely. Training and nurturing the growth of newer employees to the team. Provide assistance to whomever may need help in the workplace.
  - **Crew Chief – Discount Tire, Homer Glen, IL – August 2022 – February 2023**  
Resource management: finding the correct tires needed for the tasks at hand and other resources (tools, objects, supplies) needed to maintain safety and efficiency in the workplace.
-
